Memo.No.113359 (e) P&D I/50-9, Development, dated 23.2.1951.
From the Chief Engineer, Grow More Food, Letter No.4098/49-B-9, dated 3.3.1951.
From the Registrar of Co-operative Societies, Letter No.Rc.141621/50 Q, dated 24.3.1951.
From the Board of Revenue, L.Dis.No.T.257/51, dated 6.10.1951.

.....

O R D E R:

The Forest Grievances Enquiry Committee, South Kanara constituted in the G.O. cited is of the view that any proposals for irrigation works coming from Malnad have not been neglected in the past, but have been examined and pursued. To substantiate this view the Committee has given a list of irrigation schemes already proposed for the South Kanara District and the stage at which each scheme lies at present. It has also given details regarding the number of minor irrigation works in the whole district and also in Malnad.

2. The Collector of South Kanara stated separately that the Minor Irrigation Schemes such as excavation of tanks, repairs and improvements thereto, putting up of small bunds across streams and harnessing of springs within the reserved forests in South Kanara might be taken up and recommended that with a view to implement these Minor Irrigation Schemes, a preliminary investigation should be undertaken by a T.R.S. Party headed by an Assistant Engineer. The Government have sanctioned the necessary staff in G.O.Ms.No.1822 Revenue, dated 24.6.1950. No further action is therefore called for on this recommendation.

3. The Registrar of Co-operative Societies submitted in connection with the preparation of medium and long term schemes for the consideration of the Central Malnad Planning Committee the following two Co-operative Irrigation Schemes in South Kanara District:-

(1) A scheme for the formation of a Co-operation Irrigation Society in Addoor Village, Kasargod Taluk and the installation of 3 pumping units to benefit small pattadars of the village ; and

(2) A scheme for the Co-operative Irrigation of lands from the Nethravathi and Kumardhari rivers in Uppinagady and other villages in South Kanara District and Installation of 6

p.t.o.

pumping units to benefit 70 pattadars. Orders on these proposals will be issued separately.

4. The Chief Engineer (Buildings and Grow More Food) suggested in connection with the preparation of immediate, medium and long term plans for the consideration of the Central Malnad Planning Committee the following 4 works:-

1. Udipi Taluk:- Improvements to Malthodu Madaga.

2. Coondapoor Taluk:- Constructing an anicut across Sangalagundi River.

3. Improvements to Kotekere Tank.

4. Puttur Taluk: - Construction of an anicut across Kandaka river.

Improvements to Halthodu Madaga and Kotekeré tank have already been sanctioned. The Chief Engineer(I) is requested to examine the feasibility of treating the following two irrigation schemes as intensive cultivation schemes and in such an event to submit proposals to the Government with necessary plan and estimate in respect of the two schemes

(1) Constructing an anicut across Sangalagundi River in Coondapoor Taluk; and

(2) Construction of an anicut across Kandaka river in Puttur Taluk.

(By Order of etc.,)
